

According to IBCC, following formula is applicable on Sri Lankan students:

CONVERSION FORMULA FOR SRI LANKAN GCE 'A' LEVEL GRADES/SCALES

Grades	Symbol	Pak. Equivalent Marks
Distinction	A	85
Very Good Pass	B	70
Credit	C	57
Ordinary Pass	S	45
Failure	F	Zero

HOW TO CALCULATE YOUR PERCENTAGE?

1. Use the above table as reference to get Pak Equivalent Marks
2. Add these marks
3. Divide by the number of subjects you passed
4. The answer will be your percentage

EXAMPLE # 1:

1. If you have three grades A, B and C.
2. Your Pak Equivalent Marks will be 85, 70 and 57 respectively.
3. Add these marks $85 + 70 + 57 = 212$
4. Divide by number of subjects i.e. three. $212/3 = 70.66$
5. Your percentage marks will be 70.66

EXAMPLE # 2:

1. If you have three grades A, A and B.
2. Your Pak Equivalent Marks will be 85, 85 and 70 respectively.
3. Add these marks $85 + 85 + 70 = 240$
4. Divide by number of subjects i.e. three. $240/3 = 80.00$
5. Your percentage marks will be 80.00
