INSTRUCTIONS

HEC National Digital Library Programme (NDLP) provides researchers within public and private universities/institutions and non-profit research & development organizations in Pakistan with access to international scholarly literature. It provides subscription to high quality, peer-reviewed journals, databases, and other electronic content across a wide range of disciplines.

HEC acquires licenses of digital resources from the publishers/Service Providers having licensing and copyrights, as per the following procedure:

- Publishers engage with HEC providing detailed information about the resource, price quotations, and terms of license agreements
- HEC may seek the resource on a trial basis (free of cost) which may be offered to relevant Universities/ institutions in order to conduct need assessment.
- Following factors are considered when acquiring e-resources from publishers:
 - Subscription requests/ demand of the Universities / institutions / availability of licenses
 - Usage and contents of the e-resources
 - Terms of licenses and cost
 - Financial resources available to HEC
- HEC will enter into a licensing agreement with the publisher/Service Provider if the resource is approved based on the recommendations of the Digital Library Technical Assistance Committee (DL-TAC).
- The institutions interested in getting access to e-resources will apply on a prescribed registration form and submit the duly filled application form to the Dealing Officer of HEC Digital Library. The institutions will also provide a static IP address to access the e-resource.
- All institutions must agree to the Terms and Conditions for access to the resources available through the digital library and will sign a formal agreement for the purpose.
- For more details please visit <https://www.hec.gov.pk/english/services/students/DL/Pages/default.aspx>
